1. A person may take at any time migratory waterfowl and their eggs for propagating purposes when authorized by a permit issued by the Secretary. Waterfowl and their eggs so taken may be possessed by the permittee and may be sold and transported by him for propagating purposes to any person holding a permit issued by the Secretary in accordance with the provisions of this regulation.

2. A person authorized by a permit issued by the Secretary may possess, buy, sell, and transport migratory waterfowl and their increase and eggs in any manner and at any time for propagating purposes; and migratory waterfowl, except the birds taken under paragraph 1 of this regulation, so possessed may be killed by him at any time, in any manner, except that they may be killed by shooting only during the open season for waterfowl in the State where killed, and the carcasses, with heads and feet attached thereto, of the birds so killed may be sold and transported by him in any manner and at any time to any person for actual consumption, or to the keeper of a hotel, restaurant, or boarding house, retail dealer in meat or game, or a club, for sale or service to their patrons, who may possess such carcasses for actual consumption without a permit, but no migratory waterfowl killed by shooting shall be bought or sold unless each bird before attaining the age of 4 weeks shall have had removed from the web of one foot a portion thereof in the form of a V large enough to make a permanent, well-defined mark, which shall be sufficient to identify it as a bird raised in domestication under a permit.

3. Any package in which such waterfowl or parts thereof or their eggs are transported shall have plainly and conspicuously marked on the outside thereof the name and address of the permittee, the number of his permit, the name and address of the consignee, and an accurate statement of the number and kinds of birds or eggs contained therein.

4. Applications for permits must be addressed to the Secretary of Agriculture, Washington, D. C., and must contain the following information: Name and address of applicant; place where the business is to be carried on; number of acres of land used in the business and whether owned or leased by the applicant; number of each species of waterfowl in possession of applicant; names of species and number of birds or eggs of each species if permission is asked to take waterfowl or their eggs; and the particular locality where it is desired to take such waterfowl or eggs.

5. A person granted a permit under this regulation shall keep books and records which shall correctly set forth the total number of each species of waterfowl and their eggs possessed on the date of application for the permit and on the 1st day of each January next following; also for each calendar year during the life of the permit the total number of each species reared and killed, number of each species and their eggs sold and transported, manner in which such waterfowl and eggs were transported, name and address of each person from or to whom waterfowl and eggs were purchased or sold, together with the number and species and whether sold alive or dead; and the date

of each transaction. A report setting forth this information shall be annually furnished the Secretary during the month of January for the preceding calendar year.

6. A permittee shall at all reasonable hours allow any authorized employee of the United States Department of Agriculture to enter and inspect the premises where operations are being carried on under this regulation and to inspect the books and records of such permittee relating thereto.

7. A permit issued under this regulation shall be valid until revoked by the Secretary unless otherwise specified therein, shall not be transferable, and may be revoked by the Secretary, if the permittee violates any of the provisions of the Migratory Bird Treaty Act or of the regulations thereunder. A permit duly revoked by the Secretary shall be surrendered to him by the person to whom it was issued, on demand of any employee of the United States Department of Agriculture duly authorized to enforce the provisions of the Migratory Bird Treaty Act.

8. A person may possess and transport for his own use, without a permit, live migratory waterfowl now lawfully possessed or hereafter lawfully acquired by him, but he may not purchase or sell such waterfowl without a permit. A State or municipal game farm or city park may possess, purchase, sell, and transport live migratory waterfowl without a permit, but no such waterfowl shall be purchased from or sold to a person (other than such State or municipal game farm or city park) unless he has a permit. The feathers of wild ducks and wild geese lawfully killed, and feathers of such birds seized and condemned by Federal or State game authorities may be possessed, bought, sold, and transported, for use in making fishing flies, bed pillows, and mattresses, and for similar commercial purposes, but not for millinery or ornamental purposes.

A person may take at any time migratory birds and their nests and eggs for scientific purposes when authorized by a permit issued by the Secretary, which permit shall be carried on his person when he is collecting specimens thereunder and shall be exhibited to any person requesting to see the same; except that nothing herein shall be deemed to permit the taking of any migratory game bird during the open season therefor between 4 p. m. and 7 a. m. of the next succeeding day, standard time, or in any manner or by any means not permitted by regulation 3 of these regulations.

Application for a permit must be addressed to the Secretary of Agriculture, Washington, D. C., and must contain the following information: Name and address of the applicant, his age, and name of State, Territory, or District in which specimens are proposed to be taken, and the purpose for which they are intended, and the names and addresses of at least two well-known ornithologists, principals or superintendents of educational or zoological institutions, officials or members of zoological or natural-history organizations, or instructors in zoology in high schools, colleges, or universities from whom may be ascertained the qualifications of the applicant for a permit.

The permit may limit the number and species of birds, birds' nests, or eggs that may be collected thereunder and the places where they may be collected and may authorize the holder thereof to possess, buy, sell, exchange, and transport in any manner and at any time migratory birds, parts thereof, and their nests and eggs for scientific purposes; or it may limit the holder to one or more of these privileges. Public museums, zoological parks, and societies and public scientific and educational institutions may possess, buy, sell, exchange, and transport in any manner and at any time migratory birds and parts thereof and their nests and eggs for scientific purposes without a permit, but no specimens shall be taken without a permit. The plumage and skins of migratory game birds legally taken may be possessed and transported by a person without a permit.

A taxidermist, when authorized by a permit issued by the Secretary, may possess, buy, sell, exchange, and transport in any manner and at any time migratory birds and parts thereof legally taken, or he may be limited to one or more of these privileges. A taxidermist granted a permit under this regulation shall keep books and records correctly setting forth the name and address of each person delivering each specimen of a migratory bird to him, together with the name of each species, the date of delivery, the disposition of such specimen, and the date thereof, which said books and records shall be available for inspec-

tion at all reasonable hours on request by any duly authorized representative of the Department of Agriculture.

Each permit shall be invalid after June 30 succeeding the date of issuance, shall not be transferable, and shall be revocable at any time at the discretion of the Secretary. A permit revoked by the Secretary shall be surrendered to him by the person to whom it was issued, on demand of any employee of the United States Department of Agriculture authorized to enforce the provisions of the Migratory Bird Treaty Act. A person holding a permit under this regulation shall report annually to the Secretary on or before the 10th day of July the number of skins, nests, or eggs of each species collected, bought, sold, received, possessed, mounted, exchanged, or transported during the preceding 12 months, and failure to make such report will be cause for refusal to renew the permit.

Every package in which migratory birds or their nests or eggs are transported shall have clearly and conspicuously marked on the outside thereof the name and address of the sender, the number of the permit in every case when a permit is required, the name and address of the consignee, a statement that it contains specimens of birds, their nests, or eggs for scientific purposes, and, whenever such a package is transported or offered for transportation from the Dominion of Canada into the United States or from the United States into the Dominion of Canada, an accurate statement of the contents.

[As amended Oct. 25, 1918; Mar. 3, 1921; June 11, 1923; Apr. 23, 1929; Mar. 17, 1931; July 20, 1932; Sept. 11, 1933; Aug. 20, 1934; and July 30, 1935.]

Regulation 10.—Permits to Kill Migratory Birds Injurious to Property

Community injury.—When information is furnished the Secretary that any species of migratory bird has become, under extraordinary conditions, seriously injurious to agriculture or other interests in any particular community, an investigation will be made to determine the nature and extent of the injury, whether the birds alleged to be doing the damage should be killed, and, if so, during what times and by what means. Upon his determination an appropriate order will be made.

Specific injury.—Upon receipt by the Secretary of information from the owner, tenant, or share cropper that migratory birds are injuring his crops or other property on the land on which he resides, together with a statement of the location of the land, the nature of the crops or property being injured, the extent of such injury, and the particular species of birds committing the injury, an investigation will be made by the Bureau of Biological Survey of the Department of Agriculture, and if it is determined from such investigation that the injury complained of is substantial and can be abated only by killing the birds, or so many thereof as may be necessary, a permit to kill the birds will be issued by the Chief of said Bureau, in which permit will be specified the time during which, the means and methods by which, and the person or persons by whom the birds may be killed, and the disposition to be made of the birds so killed, and such other restrictions as may be deemed necessary and appropriate in the circumstances of the particular case: *Provided, however,* That in every permit issued as aforesaid it shall be specified that no such birds shall be shot at or killed at any time or in any manner not authorized by the laws of the State in which such permit is effective; and as to migratory waterfowl, that they shall not be shot at or killed (1) from any blind, sink, pit, or any other device or means of concealment, whether natural or artificial, movable or stationary, or on land or water; (2) by means of any gun larger than no. 10 gage, or of any gun to which a silencer has been attached or otherwise affixed; and (3) by the use of decoys of any description, or of traps or nets of any kind.

[As amended Aug. 20, 1934.]

Regulation 11.—State Laws for the Protection of Migratory Birds

Nothing in these regulations shall be construed to permit the taking, possession, sale, purchase, or transportation of migratory birds, their nests, and eggs contrary to the laws and regulations of any State or Territory or District made for the purpose of giving further protection to migratory birds, their nests, and eggs when such laws and regulations are not inconsistent with the convention between the United States and Great Britain for the protection of migratory birds concluded August 16, 1916, or the Migratory Bird Treaty Act and do not extend the open seasons for such birds beyond the dates prescribed by these regulations.
